- **AVOID EYES & EARS.**
- **IF ANY SIGNS OF IRRITATION OCCUR, STOP USING THIS PRODUCT.**

Bugs Be Gone is the natural way to say goodbye to fleas, mites and other insect nasties. No harsh chemicals or poisonous insecticides are used in this product. It is 100% natural and safe to use on all mammalian and bird species.

Neem has been used for centuries in the treatment of skin disorders and contains many unique compounds to control pests. The active ingredients of Neem not only deter insects from feeding, but also interfere with their normal life cycle, including moulting, mating, and egg laying.

Great for hot spots, flea bites, scratching and irritated skin. We know of no other effective treatment for pests that is so friendly to the skin. Safe to use on all mammalian and bird species. Useful for all skin conditions. Contains no essential oils, so it can be used on cats.

Directions: sprinkle lightly along the back and massage in. Also useful around the bottom area on rabbits to help prevent Flystrike.

The powder can also be sprinkled on pet bedding / hutches / bird cages / litter trays to help deter insect nasties. It can also be used in used in sand baths for chinchillas.
