Buzz Off Concentrate

Commercial insect repellents contain many synthetic ingredients, together with CFC gases that can harm the environment and pollute the air that we (and our precious guineas) breathe. There is now more demand for natural products, so we've come up with a formula made from pure essential oils and Neem oil.

Essential oils are not about killing insects, but they do work well as a deterrent to stop them entering or staying in your living space.

The concentrate comes in a 50ml bottle that will make 1 litre of Buzz Off. You will need:

- A 500ml plant spray bottle (available from your local DIY store)
- 25ml of the concentrate
- 500ml water
- Gorgeous Guineas label for your spray bottle

Instructions

1. Shake the concentrate bottle before opening.
2. Fill your spray bottle with 500ml water and put the enclosed sticker on it.
3. Add 25ml of the concentrate (half the bottle) to your spray bottle and shake well
4. Always shake the spray well before use.
5. Spray around the area in which your guinea lives. It is economical to use and flies etc don't seem to hang around very long! If you have a shed, the best places to spray are around the windows / window ledge and the door.
6. When cleaning your guinea's cage, it is safe to give their cage one or two sprays, but you **MUST** ensure that you leave 30 minutes after spraying before putting your guineas back in their cage.

CAUTIONS

- **DO NOT USE ANY PRODUCTS CONTAINING ESSENTIAL OILS ON OR NEAR CATS – THEY CAN BE FATAL.**
- DO NOT SPRAY DIRECTLY ON OR NEAR YOUR GUINEA.
- DO NOT SPRAY ON, OR NEAR POLISHED SURFACES.
- KEEP AWAY FROM CHILDREN AND ANIMALS.
- DO NOT SPRAY NEAR EYES.
